

SANDIP NIRMAL

Everett, WA 98204 — (203) 668-0163 — sandipnirmal802@gmail.com — LinkedIn

PROFESSIONAL SUMMARY

Public health professional with 10+ years across 3 healthcare organizations, managing 100+ daily patient cases. MS in Epidemiology & Biostatistics (R, SAS). Validated 5+ diagnostic protocols, cut lab turnaround by 20%, and maintained 100% regulatory compliance. Seeking an epidemiology or health analytics role.

CORE COMPETENCIES

- | | | |
|----------------------------------|----------------------------------|---|
| • Epidemiology & Biostatistics | • Clinical Laboratory Operations | • Health Data Analysis |
| • Statistical Software (R, SAS) | • Research Design & Methodology | • Regulatory Compliance |
| • Community Health Education | • Phlebotomy & Blood Bank | • MS Office Suite (Excel, Word, PowerPoint) |
| • Laboratory Information Systems | • Supervision & Team Leadership | • Patient Privacy (HIPAA Standards) |

PROFESSIONAL EXPERIENCE

Senior Medical Laboratory Technologist (Senior Health Care Coordinator) Feb 2018 – Nov 2023

Hetauda Reference Laboratory Pvt. Ltd.

Hetauda, Nepal

- Oversaw end-to-end clinical laboratory operations for a high-volume diagnostic facility serving 100+ patients per day, ensuring timely and accurate test reporting.
- Led development and validation of 5+ diagnostic protocols and procedures, reducing test turnaround time by approximately 20% and improving diagnostic reliability.
- Coordinated care across 3+ multidisciplinary teams, monitoring health outcomes for a patient population of 100+ daily cases and improving service delivery quality.
- Maintained 100% compliance with ethical, regulatory, and patient-privacy standards across all laboratory activities during a 5-year tenure.
- Integrated emerging medical research and best practices into daily laboratory workflows, keeping processes aligned with current clinical standards.

Executive Assistant / Phlebotomy Technician

Sep 2022 – Sep 2023

Nepal Red Cross Society — Regional Blood Center

Hetauda, Nepal

- Performed 500+ phlebotomy procedures for blood donors and patients, maintaining strict adherence to WHO and national medical protocols with zero reported incidents.
- Managed end-to-end blood sample workflow — collection, labeling, crossmatching, and storage — for a regional blood center processing 50+ units per month.
- Contributed to the development and validation of transfusion diagnostic protocols, improving accuracy and safety outcomes in a high-stakes clinical environment.
- Ensured full compliance with government regulations, ethical standards, and patient confidentiality guidelines throughout laboratory operations.

Laboratory Technologist

Oct 2013 – Jan 2018

Goldengate Polyclinic & Diabetes Pvt. Ltd.

Lalitpur, Nepal

- Executed 30+ categories of diagnostic lab tests per week, supporting clinical decision-making for a high-throughput polyclinic serving diverse patient demographics.
- Collaborated with physicians and healthcare teams to interpret lab results and influence evidence-based

treatment plans, contributing to improved patient outcomes.

- Participated in medical research initiatives and pursued ongoing professional development to advance laboratory practices and technical expertise.

EDUCATION

Master of Science — Public Health, Epidemiology & Biostatistics Concentration *Graduated April 2026*

Monroe University, King Graduate School

New Rochelle, NY

Bachelor of Science — Medical Laboratory Technology

Aug 2013

H.N.B. Garhwal University

Srinagar, Uttarakhand, India

RESEARCH & FIELD EXPERIENCE

Public Health Graduate Intern

2024 – 2025

Apna Frooticana

Everett, WA

- Applied nutrition principles, food safety standards, and community hygiene practices in a real-world grocery and community health setting.

Community Outreach Coordinator (Volunteer)

Volunteers of America & Lynnwood Neighborhood Centre

Washington State

- Delivered health education programming on nutrition, food safety, and hygiene to underserved populations; supported food distribution operations aimed at reducing health disparities.

Health Systems Research Trainee

Aug 2014

National Health Research Council, Nepal

- Trained in public health research proposal development; applied research ethics and quantitative methodology in healthcare contexts.

TRAINING & CERTIFICATIONS

- **COVID-19 Sample Collection & Biosafety Orientation** — National Public Health Laboratory, Nepal (2020)
- **First Aid & Phlebotomy Technician Course** — Nepal Red Cross Society (Jan 2022 – Jul 2022)
- **Food Protection (E003)** — Region 6 South Central Public Health Training Center (4.0 CEUs)
- **Occupational Health and Safety (E010)** — Region 6 South Central Public Health Training Center
- **Laboratory Internship** — National Public Health Laboratory, Nepal (Nov 2013 – May 2014); rotations through clinical departments and Blood Transfusion Center

HONORS & AWARDS

- **Best Laboratory Technologist, Bagmati Province** — Recognized for exceptional contributions to clinical laboratory diagnostics and healthcare services (2020)
- **Young Businessman Award** — Federation of Nepalese Chambers of Commerce & Industry, Bagmati Province (2021)

CONFERENCES & PRESENTATIONS

- 1st International Conference — New Horizons in Pharmaceutical & Biomedical Studies, India (2013)
- National Symposium — Role of Biotechnology in Infectious Diseases, India (2013)
- Scientific Seminar — World Biomedical Laboratory Science Day, Chandigarh Chapter, India (2013)
- International Youth Summit, Dubai (2023)
